Insider English

We use *-friendly* with a noun to say that something is not harmful or that it's appropriate for a specific group of people. Common expressions are eco-friendly, budget-friendly, family-friendly, customer-friendly, pet-friendly, and earth-friendly.

Eco Stitch

About us

We're all about being green!

At Eco Stitch, our goal is to make eco-friendly fashion. Here's how!

We use alternatives to **cotton**. Cotton is taken from plants, and because it's **natural**, many people think it is more environmentally friendly than polyester, which is **artificial**. However, a lot of chemicals are used by most cotton farmers, and large amounts of water are needed, too. Meanwhile, polyester is often made from recycled **plastic** bottles. It's also **warmer** and **lighter** than cotton, so less material is needed! Check out our **waterproof** polyester jackets!

We also use **wool**, a sustainable and natural fabric. Not only are our wool sweaters beautiful, but they're good for the environment.

We have a lot of skirts, dresses, and shirts made from **soft** bamboo fabric as well. Bamboo is a grass that is similar to **wood**. Less energy and water are used to make material from bamboo than from cotton. Also, bamboo is easy to plant and grow quickly.

Finally, even our packaging is made from recycled paper, and the bags are reusable!

Don't worry! Our clothes may be green, but they come in many colors!

Plastic is really bad. So many things are made of plastic – like bottles. And they're just thrown away.

10.03 Audio script

Lucy Thanks for helping me with my project, Monty. So, my first question is, do you know where your laptop comes from?

Monty Well, it's an American brand, but it probably wasn't made in the US. I guess it was designed there and then manufactured in China. But I didn't think about that when I bought it. I just wanted a good laptop for a good price.

Lucy I understand. And how about your coffee?

Monty I guess the coffee beans were imported. They weren't grown here in Canada, that's for sure! They were probably shipped from Brazil. I think that's where some of the best coffee comes from, and this is really good.

Lucy Yeah. And how about your sandwich?

Monty Well, I know it's fresh because it was made right in front of me. I'm not sure about the things in it, though. The tuna was probably caught and frozen weeks ago, but maybe the tomatoes were grown here. I hope so. It's good when fruit and vegetables are produced locally.

Lucy OK, thanks very much. I think I'll get one of those sandwiches now. Talking about food always makes me hungry!

- C** **10.03** Read and listen again. Why did Monty buy his laptop? What does he know for sure about his sandwich?

I ordered two boxes of Cocosations last week. The chocolate bars were delivered this morning, and my mom and I immediately tried them. They're fantastic! The caramel in the middle is not too sweet, and it goes well with the dark chocolate on the outside. We noticed a little salt was included in the caramel, and that's the magic touch. Salted caramel is very popular now. Although I usually buy Cocomax bars, I'll probably buy Cocosations from now on. This is another great product from my favorite candy company – thanks, Cocobar!

I'm a big fan of SUPERSPORT watches. I used to have a SUPERSPORT P1, but I lost it, so yesterday I went out and bought the new SUPERSPORT P2. I notice the screen of the new watch is made of glass. In the old model, the screen was made of hard plastic. I'm not sure glass is a good idea. It's true that the old plastic screen looked a little cheap. However, it was stronger than the glass screen, and that's very important for a sports watch. Otherwise, the P2 is really good and looks cool.
